Full Stack Developer with expertise in the MERN stack, API design, and secure, scalable web applications. Experienced in Stripe payment integration, PostgreSQL database management, Docker containerization, and implementing web security best practices. Familiar with LLM integration for intelligent features and performance optimization. Adept at collaborating in agile teams to deliver reliable, production-ready software.

Skills

Languages: JavaScript, Python, C, C++
Frameworks & Libraries: React, Redux, Tailwind CSS, Material UI, FastApi, Streamlit
Backend & Serverless: Node.js, Express.js, API Gateway, RESTful API Development, Server-Side Logic, Data Security
Databases: MongoDB, PostgreSQL, Firebase
Cloud & DevOps: Docker, GitHub Actions, Git/GitHub, CI/CD Pipelines, Netlify
API Integration: Expertise in integrating AI-driven APIs (OpenAI, Gemini)
Soft Skills: Responsive, Friendly, Communication, Teamwork, Collaboration, Problem Solving, Critical Thinking, Time & Project Management, Adaptability, Continuous Learning

Work History

Full Stack Developer	<i>December 2024 - Present</i>
<i>Sakesh InfoTech Pvt Ltd, Hyderabad, India Texas , USA</i>	
- Built and optimized React UI components for 5+ features, improving performance and usability and reducing unnecessary re-renders by ~25%. - Created scalable FastAPI backend services with structured validation and error handling, delivering 10+ APIs supporting real-time client consumption. - Managed application databases across development and production environments, handling thousands of records while ensuring data integrity, backups, and optimized queries. - Integrated LLM workflows to summarize multi-page DOCX documents and dynamically generate PPTX presentations. - Configured and integrated Stripe price IDs into frontend and backend services, enabling 1 new pricing tier within the existing payment system. - Used Dockerized workflows to support deployments and maintenance.	
Remote Software Developer Intern	<i>Jan 2024 – Feb 2024</i>
<i>CodeClause, Pune, India</i>	
Engineered a language translation tool with OpenAI API, enhancing user satisfaction and translation accuracy.	

Education

Bachelor of Engineering (Computer Science)
2020 - 2024
<i>Deccan College of Engineering and Technology (Osmania University), Hyderabad, India</i>
CGPA: 7.43
Intermediate (MPC)
2018 - 2020
<i>MS Junior College, Mehdiapatnam, Hyderabad, India</i>
CGPA: 9.53
Secondary School (SSC) - 2018
<i>MS Creative School, Mallepally, Hyderabad, India</i>
CGPA: 9.2

Achievements

Secured 1st Winner Place at a Hackathon conducted by MetLife Company.

Projects

Full Stack Developer | BudgetBuddy (Finance Tracking and Budgeting Web App): Developed a comprehensive budgeting tool using the MERN stack with Gemini API integration for personalized financial advice.

Full Stack Developer | AI-ChatLingo (Language Learning Web App): Architected user authentication and AI-powered chatbot interactions, utilizing the MERN stack and Gemini API. Delivered responsive UI and optimized performance across devices.

Full Stack Developer | TaskTrackr (Task Manager Web App): Built a task management tool featuring user authentication, task editing, and deletion, prioritizing security and usability.
